EXPERIENCE

MetroSafe, Louisville, KY March 2018 - Present
Communications Specialist I

- Create and maintain multiple runs for city law enforcement, ambulance services, & fire departments.
- Collaborate with over a dozen personnel to oversee successful city events including Thunder, Derby, etc.
- Manage resources to handle major occurrences to members of the public including major vehicular accidents, shootings, etc.
- Developed a small application to help calltakers search for non-emergency numbers for other counties, thus reducing the time it took to connect local callers with outside agencies.

Freelance Web Developer May 2020 – Present

- Developed a number of websites and small applications for clients ranging from adult daycare administrators to food truck owners.
- Created an user-friendly single-age application for Kebab on Wheels food truck based in Louisville, KY that exposed business to customers and increased revenue for owner.
- Designed a website for the Ihya502 podcast which has both a pleasant UI and a NoSQL-based feedback database.
- Developed a website for West End ADHC showcasing the various services for the adult daycare and created an easy-to-view database for the client to view form submissions via Google Sheets.
